

WHAT IS NEW YORK SEA GRANT?

New York Sea Grant is a statewide network of integrated research, education and extension services promoting coastal community economic vitality, environmental sustainability and citizen awareness about the State's marine and Great Lakes resources.

- Through NYSG's efforts, university scientists and extension specialists help transfer science-based information to many coastal stakeholders and decision-makers .
- We combine peer-reviewed scientific rigor with a real-world stakeholder view by supporting high-quality, university-based, natural and social science research that takes an unbiased look at priority coastal resource and community issues.

FUNDING AND PARTNERSHIPS

NYSG

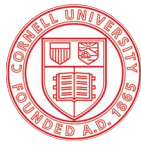

is a federal/state matching funds program

NOAA

SUNY

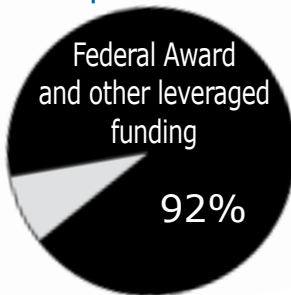

CORNELL

Since 1971 NYSG has received **\$142.5 M** for research and outreach

2017 - 2018 Budget of **≈ \$5M**

Core state funding is only **≈ 8%**

We partner with

- Northeast
