

TEACHER WEBINAR: A SPOTLIGHT ON LONG ISLAND SOUND HABITATS

DATE: AUGUST 19, 2021
TIME: 10 - 11AM
PLACE: ZOOM – REGISTER

The Long Island Sound Study national estuary program and its partners New York Sea Grant (NYSG) and Connecticut Sea Grant (CTSG) invite you to join us in this year's "Teacher Webinar: A Spotlight on Long Island Sound Habitats".

The webinar will serve to showcase the latest educational tool created by our programs, an Next Generation Science Standards-based StoryMap focused on highlighting habitats within the Long Island Sound watershed and some of the 'phenomena' observed or work done in those regions.

This webinar will feature:

- A walkthrough of the StoryMap by NYSG and CTSG
- A Q&A panel with expert Long Island Sound researchers and resource managers
- A break-out session for teachers to explore the resource with each other and exchange ideas about how to incorporate the tool into the classroom

This educator webinar is suitable for anyone interested in learning about LIS habitats and this new educational tool showcasing them for students. Teachers and educators in New York and Connecticut are especially encouraged to join in.

Attendance is FREE, but registration is required: <https://bit.ly/3zzSzoA>

Certificates of attendance will be provided upon request

For more information, contact Jimena Beatriz Perez-Viscasillas at jbp255@cornell.edu or Diana Payne at diana.payne@uconn.edu.
