

# New York **SEAFOOD** Summit

February 22-26, 2021

## **Monday, February 22nd 3-4 PM:** Welcome and Seafood Cooking Demo with Chef Victoria Blamey

A native of Santiago, Chile, Blamey was a student of history until she course-corrected into the professional kitchen, leaving university to attend the International School of Culinary Studies in Santiago. Since then she has spent over a decade cooking in Michelin-lauded restaurants around the world. As she looks forward to her next chapter, the always-energized Blamey has been creating pop-up restaurants and experiences with popular chefs and restaurants in both New York City and Chile, inviting diners to enjoy her signature cuisine while continuing to evolve it for her next professional home. We are honored to have chef Victoria share her thoughts on making the most of our local NY seafood.
